Prices Yielding Weakly at the Close, Which Was at the Lowest Notch.

New York, June 23.-Nothing was left today of the show of strength in yesterday's stock market, and prices yielded Rock Island Co. 1,000 2414 241% weakly to the closing, which was at the lowest of the day, with the declining tendency in full force and at losses running from 1 to more than 3 points for leading to the day, with the declining tendency in full force and at losses running from 1 to more than 3 points for leading tendency in full force and at losses running from 1 to more than 3 points for leading tendency in full force and at losses running from 1 to more than 3 points for leading tendency in full force and at losses running from 1 to more than 3 points for leading tendency in full force and at losses running from 1 to more than 3 points for leading tendency in full force and at losses running from 1 to more than 3 points for leading tendency in full force and at losses running from 1 to more than 3 points for leading tendency in full force and at losses running from 1 to more than 3 points for leading tendency in full force and at losses running from 1 to more than 3 points for leading tendency in full force and at losses running from 1 to more than 3 points for leading tendency in full force and at losses running from 1 to more than 3 points for leading tendency in full force and at losses running force and at losses from 1 to more than 3 points for leading speculative favorites There was a mo- ge mentary disposition to buy stocks for the mentary disposition to buy stocks for the purpose of covering shorts about the time of the appearance of the favorable bank statement, but selling orders came into the market with increased volume in the attempt to realize on the bank statement and prices were carried sharply downward throughout the list. The announcement of the programme of the administration at Washington for the prosecution of the Standard Oil company was advanced as the motive for pany was advanced as the motive for

prosecution of the Stablac pany was advanced as the motive for the selling.

Total sales of bonds, par value, \$\$40.000.

The week's stock market has been extremely irregular and the many wide fluctuations in prices have kept speculative sentiment confused and irregular. An upward movement of prices found a considerable short interest uncovered as the result of the downward course of the preceding week. Notable strength was caused for a time by this combination of influences. The fact then became apparent that large selling was being done to supply this new demand and its volume and character had the effect of influences. The fact then became apparent that large selling was being done to supply this new demand and its volume and character had the effect of influences. The consequence was a sharp reaction and a sudden drop of some prominent stocks to the lowest prices of the year.

There is a growing realization of the selling.

prominent stocks to the lowest prices of the vear.

There is a growing realization of the importance of all measures which promise relief for the money markets during the pressure of crop moving period in the fall. The index of this condition is the strong demand and the high rates for time loans for periods of seven months and upward, carrying over the end of the year. Active demand and small offerings for those periods have carried the interest rate this week to 5½ per cent, with the market still strong. The market responded vigorously to the breaking of the drouth in the southwest early in the week. The working out of settlement of San Francisco fire insurance losses is the subject of some anxiety. But these considerations do not relegate from its position of first importance in the money outlook, the large volume of new securities of which the stock market must take care. Issues of these yet to come must necessarily be large for completion of enterprises already under-

taken.

The money outlook is believed therefore to account for the pressure of liquidation which appears in the stock market when favorable developments awaken any demand. The market for bonds has been sluggish and unsatisfactory to dealers. United States 3s advanced 1/8, while the new 4s registered declined 1/4 per cent on call on the week.

Miss May Ritchie, 1228 E. 12th So., Salt Lake City.

Miss Ritchie says: Miss Ritchie says:

"Mother tells me I have suffered from Catarrh since I was a baby—
and I know I have suffered ever since I can remember. I had such headaches, and my nose and head bothered me so I had to stop school. I was
always "stuffed up" and small tumors grew in my nose, making it almost
impossible to breathe. It was so bad at times I could not sleep at night,
and felt miserable. I want to say that Drs. Shores' NEW treatment has
done me more good than all the other treatments I have ever used. The swelling in my nose has gone down—the tumors or polyps have been greatly reduced without cutting or cauterizing—and I now breathe through my nose easily, my headaches are gone, and I feel splendid, and I am glad to tell others about my wonderful relief."

WEAK MEN.

So-called "Weakness" in men is merely a symptom of chronic inflam-mation in the prostate gland, brought on by early dissipation or by the im-proper treatment of some contracted disease. A complete and radical cure is, therefore, a question of restoring the prostate gland to its normal state, and this we accomplish promptly and completely without the use of internal remedies. Our treatment is a local one entirely. It is original and scientific, and has been proved absolutely effective by thousands of tests. We are convinced that by no other methods can full and permanent restoration of strength and vigor be accomplished. A complete and radical cur

A FULL AND PLAIN EXPLANATION OF WHAT DRS. SHORES' NEW TREATMENT IS AND HOW IT CURES CATARRH AND CATARRHAL DISEASES

WHAT CATARRH IS:

Catarrh, in plain English, is an inflammation of the mucus mem-brane, the soft, velvety, skin-like substance which lines the ner ear, mouth, throat and other organs of the human system. A "simple cold" is Acute Catarrh, which, if neglected, soon spreads and becomes Chronic; then follows the long list of symptoms found in the different class-s and stages of Catarrhal diseases.

HOW DOCTORS HAVE FOR-MERLY TREATED IT:

For many years the medical profession has labored with but little success trying to cure catarrh. Such drugs as Menthol, Eucalyptol, Thymol, Carbolic Acid, Vaseline, and others—alone and in combina-tion—have been tried with but little success. Unscrupulous and ignorant people have resorted to the use of Cocaine to give "temporary" relief-many so-called "catarrh cures" contain this deadly drug-but this is positively dangerous as well as ut-terly useless in the long run, and no reputable physician now resorts to

DRS. SHORES' FORMER TREATMENT

Was always harmless, and always gave satisfaction, but it lacked PERFECTION, because many cases Drs. Shores absolutely refused to treat because they were "incurable" under the methods then in use, and the old treatment also required time and patience and persistence bring results, and was not the PER-FECT treatment. Drs. Snores desired, hence Drs. Shores have experimented for years trying to find a combination of remedies that would cure quickly and surely, and finally succeeded, and announced the discovery of a new treatment.

WHAT THE NEW TREAT-MENT IS:

To cure Catarrh three things were necessary—first, a mild antiseptic solution to thoroughly cleanse mucus membrane, removing all foreign matter; next, a remedy that would reduce irritation and render the mucus membrane insensible to irritation; third, a medicine that would entirely restore the mucus membrane to normal condition, thus putting an end to the Catarrh. Such a combination must necessarily cure catarrh, and Drs. Shores have will accomplish this end.

HOW IT IS ADMINISTERED:

Drs. Shores personally administer this treatment at their office, and the charge for each thorough treat-ment is \$1-or the patient may be entirely cured for \$15, if they prefer a definite price for a cure. That is optional with the patient—\$1 per treatment or \$15 for a cure. HOME TREAMENT:

To properly administer this treatment at home, Drs. Shores have secured two kinds of instruments for use of their patients who cannot call at the office. One for cleansing and rendering the membrane antiseptic, and one for administering the curative oils direct to the diseased membranes. These two struments are given FREE with each full course of treatment, and the entire course, including instru-ments and medicines to complete a cure is \$15 only. Remember this does not mean "\$15 a month;" but \$15 for a cure. There is no more "treating by the month" for Ca-tarrh, since this new discovery cures quickly and surely.

ABSOLUTELY HARMLESS:

This treatment is guaranteed to be free from injurious drugs or medicines. It will not injure the most delicate. It will help all who use it faithfully, and cure in less time than any other treatment over used. WHAT IT DOES.

It gives immediate relief in Catarrh, Asthma, Hay Fever and Lung Troubles. It gives quicker results in Deafness than any other treatment. One treatment convinces the most skeptical.

\$1 a Treatment or \$15 for a Cure-To All Who Apply During June Only.

It is no longer necessary to treat "by the month"—you don't have to wait for weeks for improvement— ONE SINGLE TREATMENT WILL CONVINCE THE MOST SKEPTICAL-and \$1 is all it costs.
